

# ACTIVITIES

## MAKE A TROPHY

Just like the majors you can make your own trophy for at home competitions. Here are a few ideas.

### Cut out

Find some card or color paper and cut out the shape of your trophy. You can decorate it with color tissue streamers or glitter.

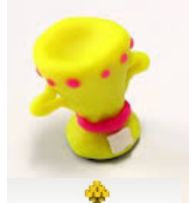

### Recycle plastic

Using old bottles, yoghurt pots and plastic spoons build your trophy, glue and paint.

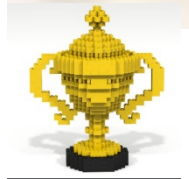

### Mold one

Use playdough or paper mache to mold your own trophy into shape.

### LEGO

Use Lego to build your trophy.

### 3D paper

Use folded paper to build a trophy, there is lots of videos online to help.

Draw your trophy and color it – have a try at building one with materials around the house.
