

ACTIVITIES

MAKE A TROPHY

Just like the majors you can make your own trophy for at home competitions. Here are a few ideas.

Cut out

Find some card or color paper and cut out the shape of your trophy. You can decorate it with color tissue streamers or glitter.

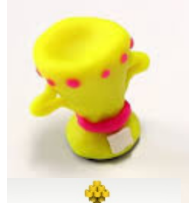

Recycle plastic

Using old bottles, yoghurt pots and plastic spoons build your trophy, glue and paint.

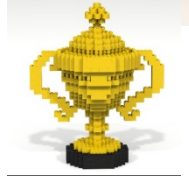

Mold one

Use playdough or paper mache to mold your own trophy into shape.

LEGO

Use Lego to build your trophy.

3D paper

Use folded paper to build a trophy, there is lots of videos online to help.

Draw your trophy and color it – have a try at building one with materials around the house.
